

EMPLOYEE OF THE MONTH

The **Employee of the Month** is none other than - **Joselyn Lloyd Bell** - better known to his fellow employees as "**JOS**".

Jos joined the Water Works on 3 March 1985 as an Engineering Assistant working directly under the supervision of Howard Lenz.

During his employment with the Little Rock Municipal Water Works, Jos has shown great strengths in organizing, planning and follow-up.

Immediately after Jos joined the Water Works, the Engineering Department was taking on the task of computerizing their records and reformatting the filing system. Jos became a very active, influential member of the committees set aside for these tasks, and energetically began writing programs and training employees in order to maintain a functional department with as little chaos as possible.

The system now being utilized in the Engineering Department is a direct result of Jos' first hand knowledge and experience on the most suitable equipment needed for the type of work the Engineering Department does.

In handling field work, Jos has taken many projects from the design stage through the close-out stage with a minimum of "red tape."

Several customers have called to acknowledge his experience and accuracy. Above all, the customers felt Jos was a well mannered, understanding person to negotiate with. When dealing with customers, Jos tries to find a "sound" solution to their problems and expedites it immediately. His willingness to help and his pleasant attitude is no different here in the office.

However, it must be known that Jos has had many of these skills drilled into him for at least 20 years. . . being of high rank military status. Jos came to use as a retiree of the Armed Forces. He has traveled much of the world, which has undoubtedly enhanced his knowledge.

Jos is a very open-minded person and is always acceptable to new ideas . . . especially a better way of using the English language (being a native of Spanish-speaking Panama, and use of other languages in his world travels), which he has become quite good at. . (Smile Jos!).

So . . . **JOS**, we congratulate you on being "**Employee of the Month**" and certainly consider you a great asset to the Water Works!
